- SH001-003

KC-46 PEGASUS

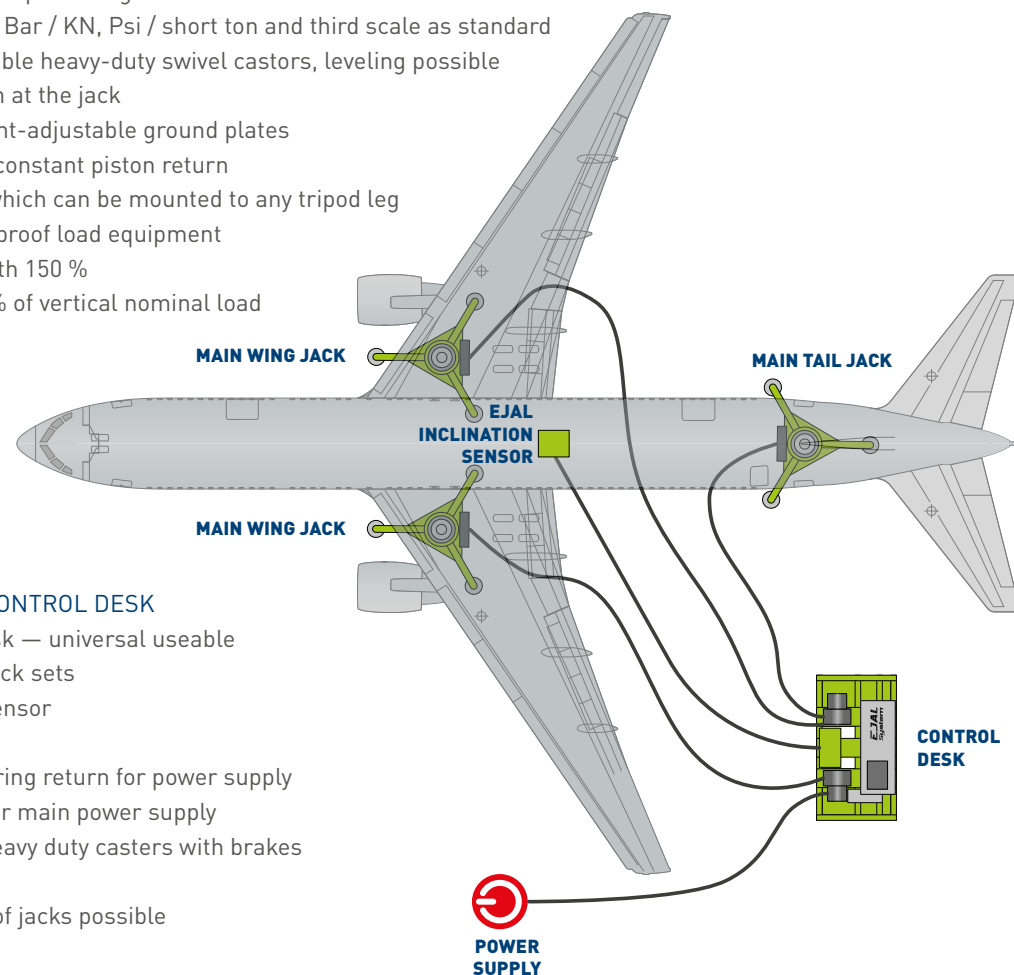

DETAILS

ELECTRONIC JACKING AND LEVELLING SYSTEM (EJAL)

The EJAL system is a fully automated tripod system for synchronized fast & safe aircraft lifting.

PRODUCT FEATURES: TRIPOD JACKS

- Pressure relief valve to protect against overload
- Pressure indicator in Bar / KN, Psi / short ton and third scale as standard
- Hydraulically-adjustable heavy-duty swivel castors, leveling possible from a single position at the jack
- Tripod legs with height-adjustable ground plates
- Low friction seal for constant piston return
- Removable tow bar which can be mounted to any tripod leg
- Interface for HYDRO proof load equipment
- Factory proof load with 150 %
- Factory side load 15% of vertical nominal load

PRODUCT FEATURES: CONTROL DESK

- Electrical control desk — universal useable for different tripod-jack sets
- Aircraft inclination sensor
- Touch panel display
- Cable drums with spring return for power supply of tripod-jacks and for main power supply
- Robust design and heavy duty casters with brakes
- Simple application
- Individual operation of jacks possible
