# ABOUT HYDRO

Precision in Aircraft Support

→ IN SAFE HANDS.

## HYDRO SYSTEMS

For more than 50 years HYDRO has been supporting the aviation industry with innovative solutions for the maintenance, repair and assembly of civil and military aircraft and engines.

Our experience and the knowledge of our more than 600 employees have made us the market leader for Ground Support Equipment and Maintenance Tooling. We offer over 3,000 GSE products including aircraft towbars and tripod jacks, and well over 25,000 tools. The superior performance of our engineering center and modern equipped manufacturing make customer ideas become reality. Our product-linked customer service complements our performance portfolio. We are close to any major airframe OEM, airline and MRO. Base of our success is a high-performance culture embedded in the family-values of a privately owned company.

→ GROUND SUPPORT EQUIPMENT

### Full Range GSE Portfolio

- Tripod jacks
- Axle jacks
- Towbars
- COBRA engine change system
- Engine handling equipment
- Landing gear equipment
- Customizing
- Tail support stanchions
- Shoring equipment
- Wheel and brake change dollies
- Service carts
- Recovery equipment

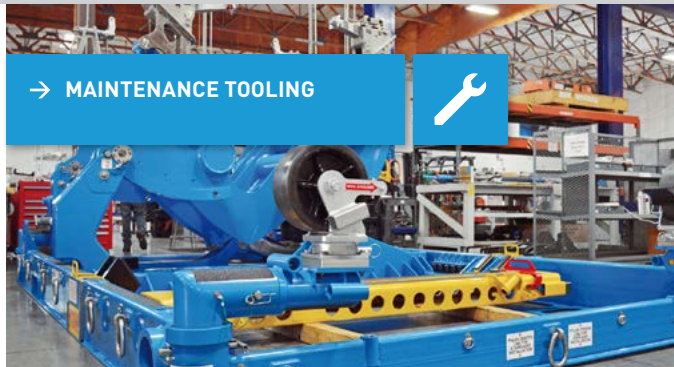

→ ENGINEERING

### Customer Specific Solutions

- Design and manufacture of PreFAL and FAL equipment
- Installation and commissioning on customer side
- Technical study and scoping
- Design to cost

→ MAINTENANCE TOOLING

### Engine Tooling

- Licensed tooling supplier of Rolls-Royce
  - Design of every new tool
  - Manufacture and delivery of tools
- Licensed supplier of Goodrich
- Supplier of IAE
- IPMA accredited project management
- LEAP tooling supplier of AGSE

### Airframe Tooling

- Licensed supplier of Boeing and Goodrich
- R & D Partner and supplier of Sukhoi and Antonov
- Supplier of Airbus and Embraer

→ SERVICE

### Full Range Service Portfolio

- Maintenance, repair and overhaul
- Engine stand refurbishment
- Calibration of gauges, torque, wrenches etc.
- Proof load testing up to 350 t
- Recertification, modification and upgrades
- On-site and AOG services
- Technical support
- Training and commissioning
- Spare parts support
