Biberach, den 26.07.2022

Boeing Global Service and HYDRO join forces to provide trusted, reliable, and innovative tripod jacks for the business and general aviation.

Boeing Global Services provider of the largest portfolio of aviation products, solutions, and services has partnered with HYDRO Systems to provide the new Tripod Jack Series (TJB) for Business Jets and General Aviation to the Market.

"We are pleased to partner with Boeing Global Service to provide the business market with easy access to our products, with the good quality and reliability for which we are known for worldwide." said Martin Dürr, Executive Vice President Ground Support Equipment & Military, HYDRO. Providing latest design Jacks meeting all OEM standards and unprecedented availability based on a build-in load test capability, the customer will benefit from increased safety and availability of the jacks to perform his job, maintain the Aircraft.

With more than 50 years of experience in Jack design, HYDRO brings its experience to the Business and General Aviation sector to make the Maintenance more efficient and safer. HYDRO has used its many years of expertise in building lifting equipment for aircraft and incorporated it into the new TJN (Tripod Jack Narrow body) series of tripod jacks for business jets. Engineered in Germany and manufactured in the US. With the new innovative tripod jacks for business jets HYDRO provides innovative lifting tools for every business jet customer in the world.

"We decided on the Gulfstream G650 to go for the Hydro TJB-Tripod due to their stability, rigidity and ease of use", explains Daniel Jatsch, Station Manager Hannover, ACC Columbia. HYDRO is OEM approved and has the state-of-the-art tripod-jacks which are applicable for multiple business jet aircraft types.
