HYDRO and Didsbury Join Forces in Broad Partnership

HYDRO Systems KGs and Didsbury Engineering are thrilled to announce their new partnership, based on a shared commitment to providing quality, cost-effective solutions for their customers. Both companies are renowned for their innovative services that enable customers to keep aircraft in the sky safely and efficiently.

The broad agreement between HYDRO and Didsbury will cover civil aviation and defense products, catering to a global customer base. The partnership will focus on delivering not only high-quality solutions, but also a rapid turnaround aftersales service for lifting and handling products, ensuring customer satisfaction at every step of the process.

"We are excited to join forces with Didsbury Engineering, a company that shares our values of excellence and customer-centric approach," said Martin Dürr, Executive Vice President GSE at HYDRO, "This partnership will allow us to provide even more comprehensive solutions to our customers worldwide, combining our expertise and capabilities to meet their evolving needs."

Both HYDRO and Didsbury have established themselves as leaders in the aviation industry, with a strong track record of delivering cutting-edge solutions and outstanding customer service. This partnership is expected to further strengthen their position in the market,

enabling them to better serve their global customer base with innovative and cost-effective solutions.

"Ultimately we are proud to be working closely with HYDRO in this new partnership," said Tom Ghigi, Managing Director at Didsbury Engineering, "This broad agreement will enable us to jointly create new products and services globally, with the sole aim of delivering quality solutions for our customers. Both companies visions for growth and long term success align clearly so this was a very quick agreement to sign!"
